## SUMMARY

Software Engineer experienced in designing and developing **scalable, high-performance applications** in **JavaScript, React, Java, and .NET**. Strong background in **system design, application architecture**, and **AI-powered solutions**. Currently pursuing **M.Tech in Software Systems** at **BITS Pilani** with a focus on **distributed systems and backend engineering**.

---

## EDUCATION

**M.Tech — Software Systems** | *BITS Pilani*

- Focus on distributed systems, advanced software architecture, and scalability engineering.
- 

## EXPERIENCE

**Software Engineer** — *Wipro* | 2021–Present

- Designed and implemented microservices-based solutions for enterprise applications (**Spring Boot, .NET, REST APIs**).
- Developed responsive front-end interfaces and integrated APIs (**React, JavaScript, MongoDB**).
- Collaborated with cross-functional teams to deliver full-stack applications from concept to deployment.
- Conducted code reviews and mentored junior developers to improve coding practices.

- Automated workflows and enhanced deployment processes using **Git, Docker, and CI/CD pipelines**.
- 

## PROJECTS

### AI-powered Influencer Management System — [Live Demo](#)

- Responsive AI platform for influencer tracking and analytics (**React, Node.js, MongoDB, OpenAI API**).
- Automated data processing and campaign management workflows.

### AI-powered Digital Marketing Agency — [Live Demo](#)

- AI-driven platform for automating marketing campaign creation and management (**React, Flask, AI/ML APIs**).
- Built to streamline digital marketing operations and optimize resource use.

### Resume Analyzer — [Live Demo](#)

- AI tool that analyzes resumes and provides real-time improvement suggestions (**React, Python, OpenAI API**).
- Designed for responsiveness and a user-friendly experience.

### Mobile Phone E-commerce Clone- [Live Demo](#)

- Fully functional e-commerce platform with real-world shopping features (**React, Redux**).
- Includes product search, cart, and checkout flows.

### Chess Application - [Live Demo](#)

- Web-based chess game with live move validation and interactive gameplay (**React, WebSockets**).

---

## TECHNICAL SKILLS

- **Languages:** JavaScript, Java, Python
- **Frameworks:** React, Spring Boot, Flask
- **Databases:** MongoDB, Firebase
- **Cloud & DevOps:** Docker, Kubernetes, CI/CD, Git
- **Other:** REST APIs, OOP, DSA, AI/ML Integrations
